Office Action Summary

Art Unit: 1734

DETAILED ACTION

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-5, drawn to method, classified in class 427, subclass 79.
- II. Claims 6-15, drawn to apparatus, classified in class 118, subclass 66.

The inventions are distinct, each from the other because:

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process as claimed can be used to practice another and materially apparatus such as one wherein the peeling step is performed by hand and only one drying unit is required instead of the two drying units required by the apparatus. The apparatus as claimed can be used to practice another and materially process such as one wherein paste in the coating flat bed has different degrees of thickness to enable one to apply different amounts of conductive paste on different chip components.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

A telephone call was made to Attorney Cardillo on 9/4/02 to request an oral election to the above restriction requirement, but did not result in an election being made

Art Unit: 1734

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication should be directed to Brenda Adele Lamb at telephone number 308-2056. The examiner can normally be reached on Monday and Wednesday through Friday with alternate Tuesdays off.
